

Valley Seeds

Australian Seed Breeders

OPEN DAY

Thursday August 30th 2018

Winter is an excellent time to look at the performance of annual and perennial grasses and see which varieties produce the most feed. It is a great time to assess which species persisted through summer for winter feed.

Come and see the latest research results in new technologies for improved pasture establishment and pest management.

Get important tips from a panel of industry experts and leading farmers on getting the most from your pastures in late winter and early spring.

TIME 10.30am to 2.00pm | Lunch provided

LOCATION 295 Maroondah Link Highway, Yarck, VIC

PENCIL IT IN YOUR CALENDAR TODAY!
