PHALARIS

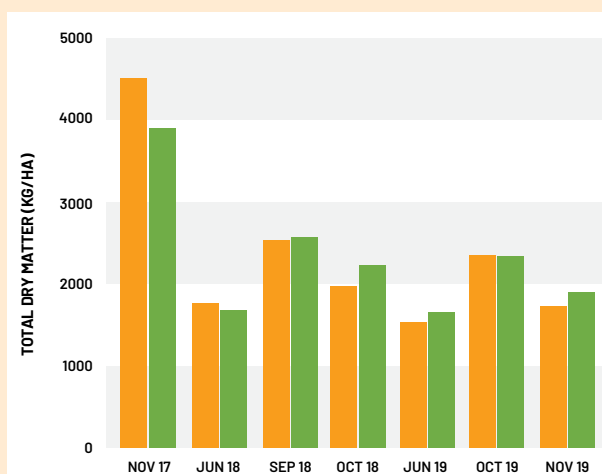

AUSTRALIAN BRED AND GROWN

## Amplify your feed base with an Australian bred Phalaris

- Australian bred and grown
- Selected for increased seedling vigour for strong establishment
- High winter and summer production
- Some tolerance to acid soils
- Selected from low toxicity phalaris lines
- Deep rooted for increased drought tolerance
- Tolerant of waterlogged soils
- Strong autumn growth to assist in reducing autumn feed gaps

## Quick facts

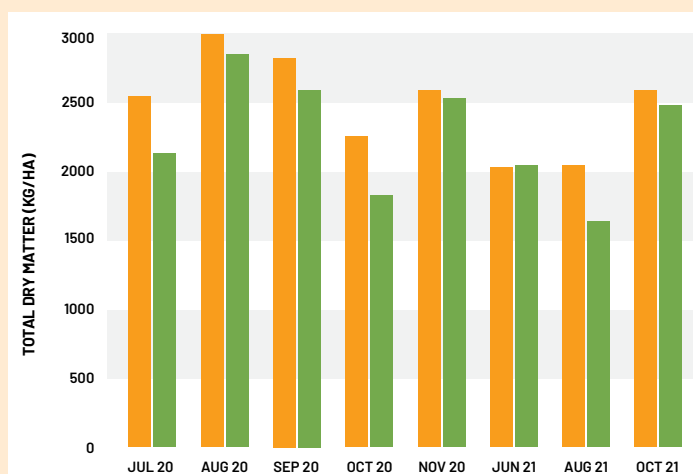

- Winter and summer active
- Waterlogging tolerant
- Early-mid heading
- Suitable for extensive grazing systems
- Rainfall 500mm+
- Sow in autumn
- Sowing rate 2-8kg/ha
